

In The Dirt

You took my hand and held it tight, and then I nearly lost my sight
You took my heart and squeezed it out, I didn't have the force to shout

You wanted everything from me, now you leave without a word
You wanted everything from me, got my face down in the dirt

You wanted everything and more, maybe it was worth dying for
In your dominance I drowned, so I never will be found

You wanted everything from me, now you leave without a word
You wanted everything from me, got my face down in the dirt

You'd got my heart in your hands, now I know everything ends

You wanted everything from me, now you leave without a word
You wanted everything from me, got my face down in the dirt
